MIAMI TRIBE OF OKLAHOMA OFFICIAL UPDATE NOTIFICATION

MAY 26, 2020

This Notification will advise that the Miami Tribe of Oklahoma will begin the process of returning to work in administration buildings with a staggered workforce on Monday, June 1, 2020. Employees at higher risk for severe illness will remain working from home. At this time the Tribe will maintain a closed work environment with only employees having access to office buildings.

The Tribe has developed policies and procedures to allow for the safest work environment possible and will adhere to all CDC guidance to include a staggered workforce, social distancing and providing PPE for staff.

The Tribe's day care, Leonard Learning Center, will begin providing childcare services on June 1st and the Tribe's casinos, Prairie Moon Casino and Prairie Sun Casino, will open on June 4th with safety measures in place per CDC guidance. The Tribe's Title VI elders lunch program has remained operational through the past months providing meal pickup and meal delivery. This same service will remain in place. The Tribe's Wellness Center and Activity Center will remain closed at this time.

As the President and state governors have said, returning to a new normal does come with risks. We must each do our part to continue acting responsibly to stop the spread of the virus which includes washing hands, wearing masks and social distancing.

We thank each of you for doing your part – we are all in this together.

Nipwaahkaako – take care and stay safe.
